Thammasat International Club

Thammasat International Club (TIC) is a new initiative at Thammasat University designed to support collaboration between Thai and international students through cultural exchange field trips and engaging events.

04

Academic Projects

This is a collection of notable projects while studying in the Design, Business, Technology and Management Program (DBTM). The projects include branding identity, event production, exhibition, product and website design.

Branding

The brief: To create branding guidelines for the visual identity of a company

TapioCha is a classic bubble tea brand made from freshly prepared tea leaves and ingredients.

Event Production

The brief: To plan an event and create supporting materials for that event

Blue Flame 2025 is a hypothetical K-pop music festival held in Pattaya, Thailand.

Exhibition Design

The brief: To design an exhibition for an integrated brand experience at the campus

The 3D model is inspired by the dome building, the signature of the university.

Product Design

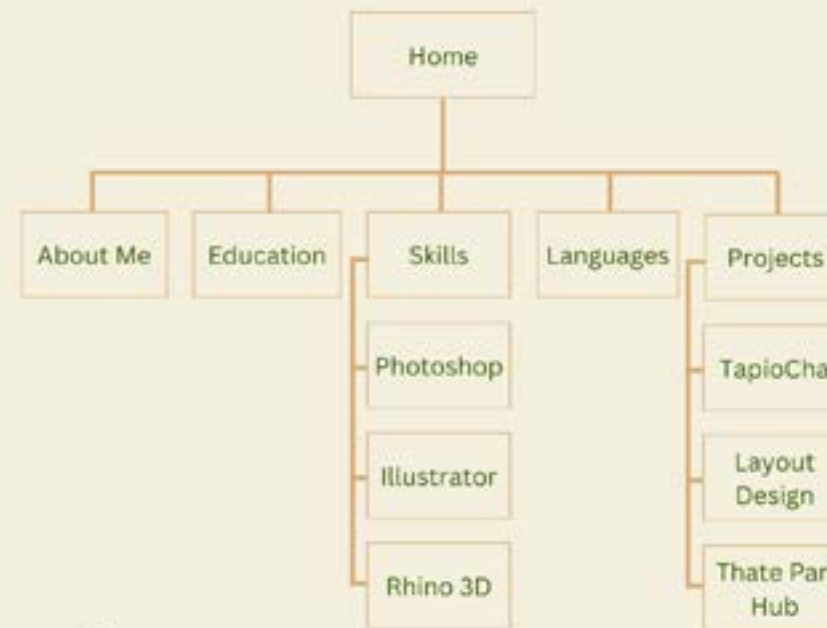

The brief: To develop a low-tech universal sustainable product for extreme users

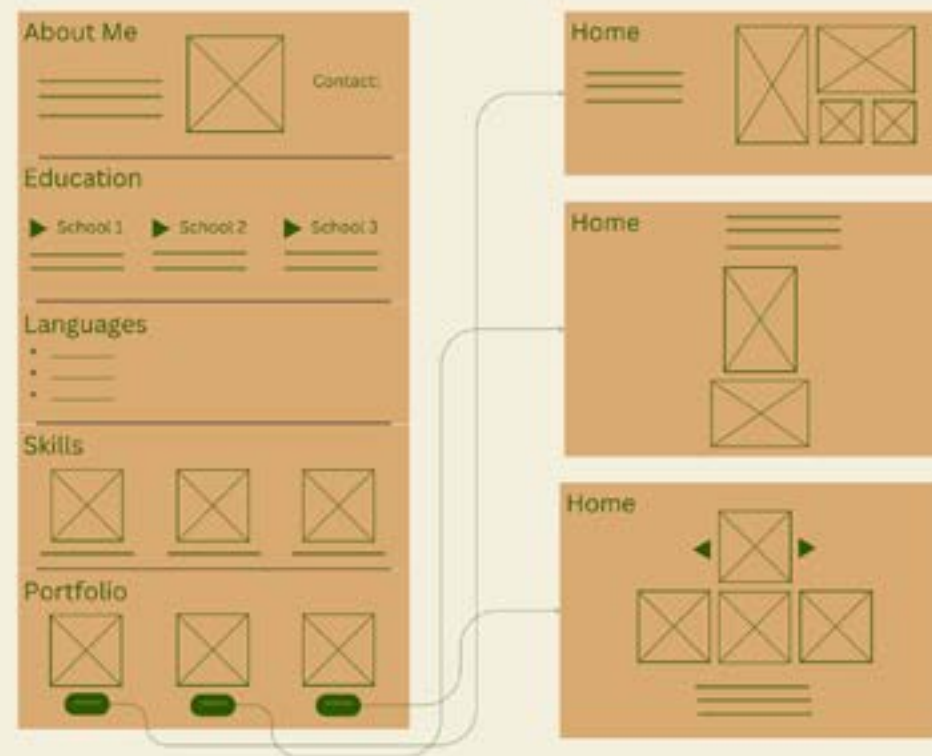

The final result is a set of clothing pins for blind people to identify the colors of their clothing.

Website Design
