Academic Projects

This is a collection of notable projects while studying in the Design, Business, Technology and Management Program (DBTM). The projects include branding identity, event production, exhibition, product and website design.

Branding

Id Ai

The brief: To create branding guidelines for the visual identity of a company

TapioCha is a classic bubble tea brand made from freshly prepared tea leaves and ingredients.

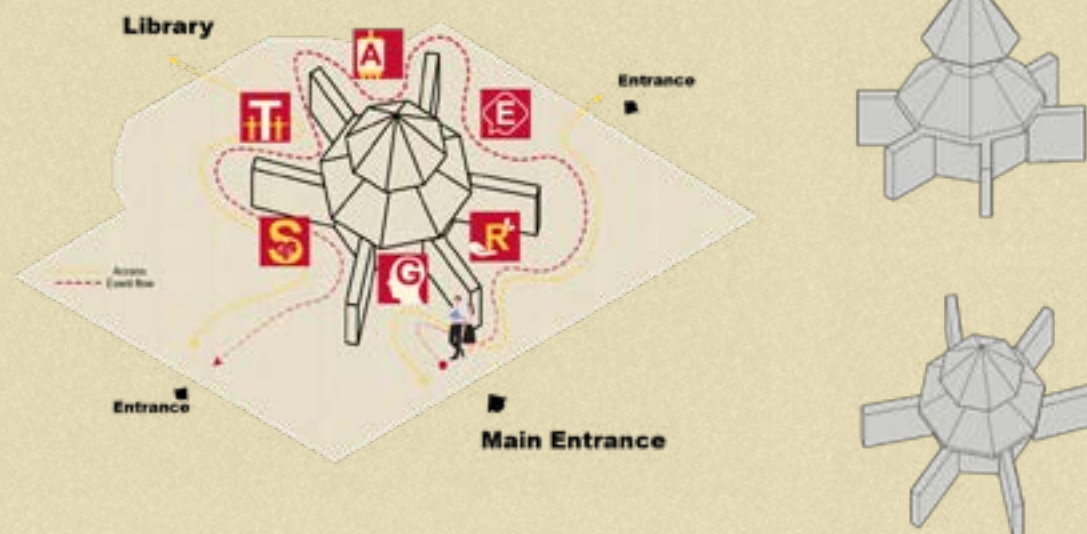

Event Production

Ai Ps

The brief: To plan an event and create supporting materials for that event

Blue Flame 2025 is a hypothetical K-pop music festival held in Pattaya, Thailand.

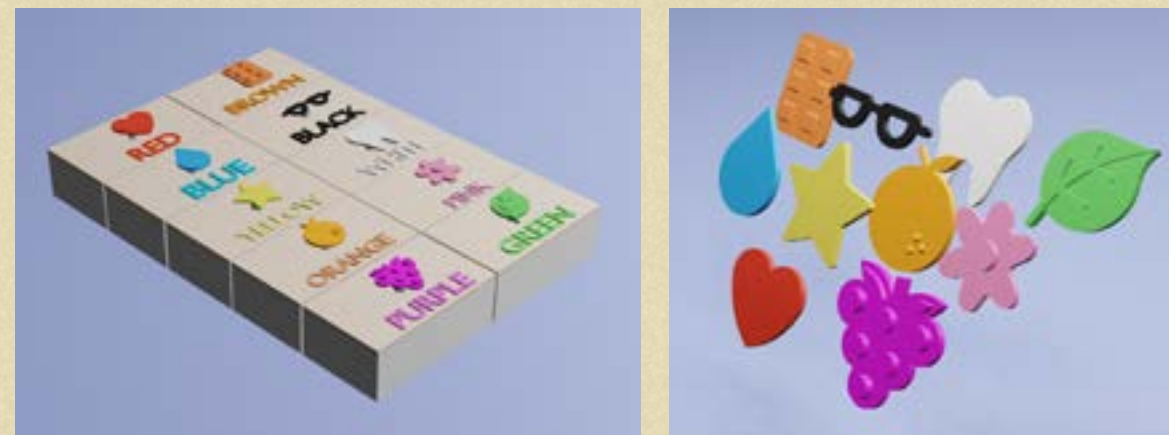

Exhibition Design

Ai SketchUpPro

The brief: To design an exhibition for an integrated brand experience at the campus

The 3D model is inspired by the dome building, the signature of the university.

Product Design

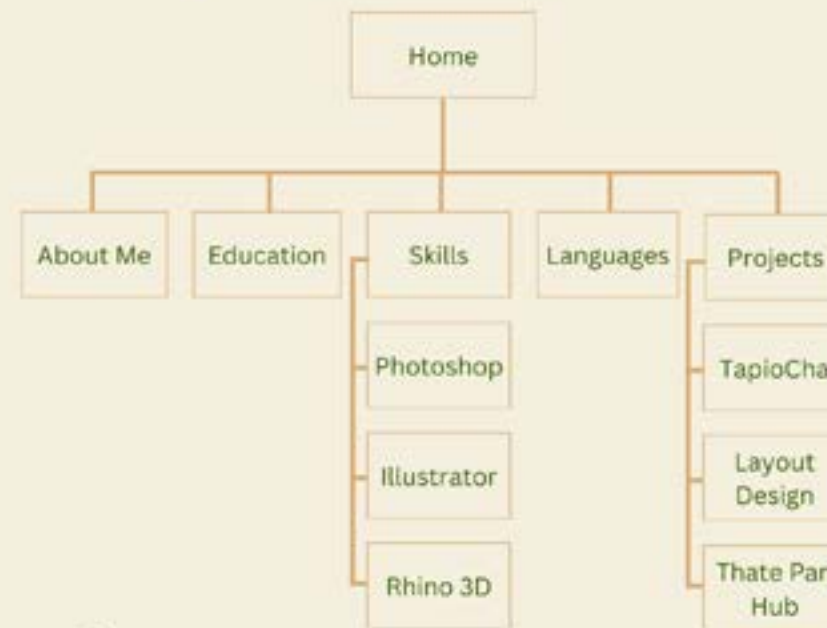

blender

The brief: To develop a low-tech universal sustainable product for extreme users

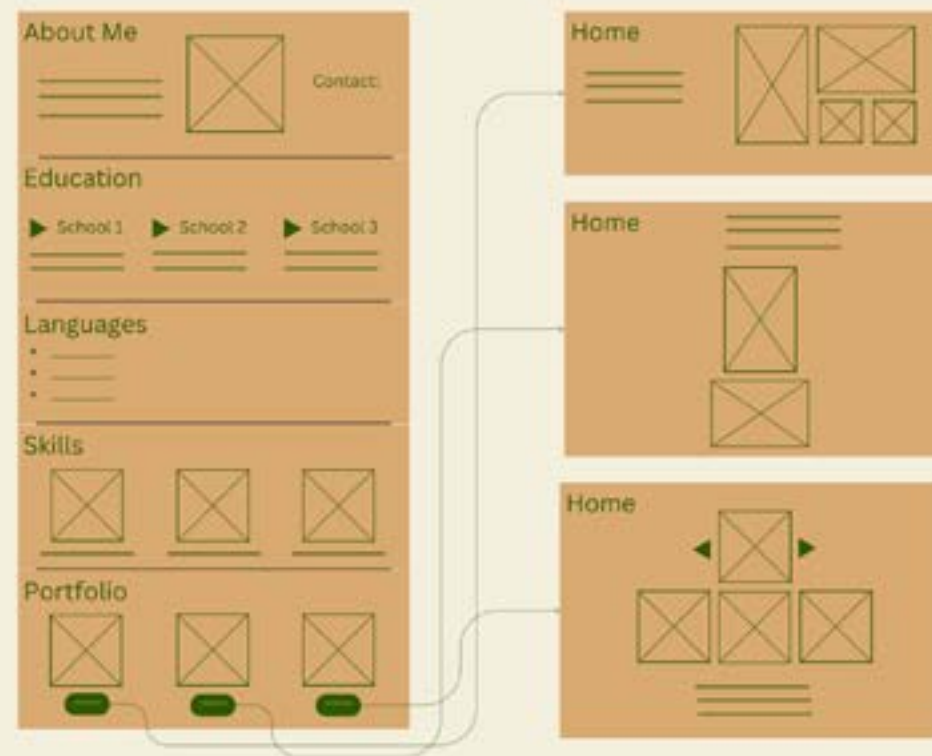

The final result is a set of clothing pins for blind people to identify the colors of their clothing.

Website Design

Site Map
